

## THE GHOST OF THE REVELATOR

L.E. Modesitt, Jr.

**In an alternate world, the physics of ghosts is an international problem**

L.E. Modesitt, Jr., returns to his hard SF mode with a new novel set in the same world as his popular *Of Tangible Ghosts*—a present-day alternate America where there is no United States, in which the ghosts of the dead linger.

Johann Eschbach, former secret agent and now university professor, and his wife, the world-famous singer, find life-threatening danger and international intrigue in an invitation to visit the country of Deseret. Before they can even depart, a bomb nearly destroys their home. Once they finally reach Deseret, the only thing that might save them lies in the physical nature of ghosts, and the secret Johann knows about that nature.

***"Both morally persuasive and emotionally wrenching."***

—THE NEW YORK TIMES ON THE ECOLITAN ENIGMA

***"An eerie charm envelops. . . . Suspense, complexities of human interaction, and the intangibles of love, trust, fear and truth intersect in this backdrop of a compelling and reality-shattering other world."***

—WILLAMETTE WEEK ON OF TANGIBLE GHOSTS

L. E. MODESITT, JR. lives in Cedar City, Utah.
